

WHITE ROCK WIND FARM (MOD 6)

26 November 2019

The Independent Planning Commission received from the Proponent an updated Biodiversity Assessment Report (BAR) for the White Rock Wind Farm (MOD 6) Project, in the state's New England Region, on Wednesday 23 October 2019. The updated Report includes additional ecological surveys and information about a proposed increase in land clearing.

On Friday 25 October 2019, the Commission sought advice from the Department of Planning, Industry and Environment (**the Department**) regarding this update.

On Friday 22 November 2019, the Department responded to the Commission with an assessment of the amended application.

The updated BAR as well as the Department's revised assessment have been published on the Commission's website:
