**Subject:** Whitehaven's Proposed Namoi River Mine/ pollution  
**Date:** Saturday, 11 July 2020 3:05:49 PM

---

I make firm My Objection to the Coalmine going-ahead on the heritage property where Dorothea McKeller write the classic-iconic poem about rural inland Australia. The proposed Mine has a “high probability” of polluting the Namoi River, so it should not go-ahead!

Australia has by virtue of being an ‘Extremely ‘ sensitive Ecological landscape, IS already Overpopulated!

Please take some time to ‘check’ the Facts of World (over)-Population, especially in countries and a continent( India & China)that are already scientifically proven to be OVERPOPULATED.

We need de-Growth on this planet, NOT more-growth!!

Take ( more) CARE!
