Subject: Kariong Sand and Soil Supplies Facility Project - objection
Date: Friday, 3 December 2021 1:54:13 PM

Dear Sir/Madam

This facility and any facility such as this should be located much further away from residential property. It is impossible for such a business to govern or police the incoming waste materials so that only non-putrescible will be dumped there. History shows that skip bins are loaded with all sorts of materials despite the requests not to do so.

This is very unfair as families and their children will suffer. Not to mention the wildlife.

I oppose this facility under any conditions.

Yours faithfully
Julia Marron
