Thank you for providing me with the opportunity to respond to Daracon's Proposed Project Amendment.

I appreciate that Daracon has modified the suggested road transportation from 1,450,000 tpa to 500,000 tpa. However, my objection to the expansion of the quarry remains.

- The number of truck movements at a maximum of 24 per hour is unacceptable.
- Traffic congestion along the haulage route has not been addressed – 24 truck movements will still have a major impact on local roads.
- Safety issues in Bolwarra and Bolwarra Heights have not been addressed.

On a personal note, I am frustrated by having to spend time reading lengthy documents and making numerous submissions.

I am yet to be convinced that the need for the aggregate quarried at Martin's Creek outweighs the quality of the lives of the local community.

I urge the IPC to reject the expansion of the Martin's Creek Quarry in its entirety.

Regards

Alison Cook
