Re: Martins Creek Quarry Expansion – additional Material 23.12.23

Sir,

Having waded through the 'additional material' submitted by DARACON and acknowledging that whilst it's a small step in the right direction the revised parameters do nothing to mitigate my concerns in my original submission(s).

The haul route over the Dungog Road 19<sup>th</sup> Century Gostwick bridge and then through Paterson Village is totally unsuitable even at the reduced volume stated in the revised parameters.

Paterson Village is absolutely unsuited to heavy haulage and even the reduced projected volume of haulage will significantly impact on the amenity of the village.

It would appear that Daracon/Umwelt, whilst obviously heeding our concerns with their revised submission, are still wanting to maximize their output at the expense of the local residents. Their revised plans have failed to address or mitigate the impacts and issues expressed in the public meeting at Tocal in November.
