Subject: Martins Creek Quarry (SSD-6612) (Objection)

Follow Up Flag: Follow up
Flag Status: Flagged

I still object strongly to the latest proposal by the Daracon Group.

I will continue to object, as Daracon have not addressed community or local business concerns.

My original concerns and objections stand as per my previous submissions.

This proposal will destroy people's lifestyles and will cause health and mental health issues which has already been experienced by people in this community.

The current road infrastructure is not built to accommodate these large haul trucks or the excess daily movements.

Regards
Trina Wilson
