## Cadia Valley Operations – Gateway Certificate Application IESC Advice

An Application for a Gateway Certificate has been made to the Mining and Petroleum Gateway Panel (MPGP) by Cadia Holdings Pty Limited. The Applicant is proposing to seek changes to the tailings storage facility embankment footprints which will involve the disturbance of Biophysical Strategic Agricultural Land. Under section 2.30 of the *State Environmental Planning Policy (Resources and Energy) 2021*, the MPGP must refer the Application to the Independent Expert Scientific Committee on Coal Seam Gas and Large Coal Mining Development (the IESC) for advice regarding the impact of the proposed development on water resources. A Development Application has not yet been lodged by the Applicant.

The IESC's advice to the MPGP is available via the link below.
