Subject: Glenellen Solar Farm – Response to Questions on Notice

Dear Mr Barry

I refer to the State significant development application for the Glenellen Solar Farm (SSD-9550), currently before the NSW Independent Planning Commission (Commission) for determination.

In response to the Commission's letter of 1 November 2023 requesting clarification on the number of homes that the Glenellen Solar Farm is expected to generate enough electricity to power, the Department confirms that based on the proposed generation capacity 200 MW, the total estimated number of equivalent homes powered by the proposed project would be approximately 76,400.

If you have any questions, please contact Iwan Davies on [REDACTED] or via email at [REDACTED]

Yours sincerely,

Iwan Davies
