Dear IPCN,  
I absolutely Object to Bowmans Creek Wind for the following reasons:

Court orders wind farm to be torn down after golden eagle death.  
Wind farm that was subject of lengthy legal battle would reportedly be first in France to be demolished on court order  
18 December 2023  
By Cosmo Sanderson  
A French wind farm that was found to have killed over 1,000 birds, including a golden eagle, will be torn down on court order.

The Nîmes Court of Appeal ruled that the wind farm – based in the town of Lunas in the south of France – must be demolished and the land returned to its original state.  
The court found that the turbines had been built on a site they should not have been following a defective impact assessment.

### **Households across NSW told to reduce electricity usage tonight as temperatures soar - ABC News**

<https://www.abc.net.au/news/2023-12-14/nsw-heatwave-electricity-usage-power-supply/103228552>  
Temperatures are expected to peak at 40 degrees Celsius in parts of Sydney today, which the Australian Energy Market Operator (AEMO) said would cause a spike in electricity demand between 5pm and 9pm this evening.

**NSW Energy Minister Penny Sharpe said the government had enacted a Government Energy Action Response Protocol, which involved agencies and major utilities minimising energy use.**  
The minister also **called for households to defer non-essential electricity consumption.**

"Every small bit of action that we take will make it much easier to make sure that the grid stays on and there's not a problem," Ms Sharpe said.

"The factors today are that it's going to be 40 degrees, we expect high demand, and **AEMO's indicated that the reserves will be under pressure,** and we're doing everything that we can to manage that," Ms Sharpe said.

Nuclear expert Dr Adi Paterson has slammed the Albanese government's refusal to consider nuclear energy as an option for Australia's power grid.

"The eastern grid in Australia is already the most complex machine in the Southern Hemisphere,"

Dr Paterson told Sky News host Caleb Bond.

"it's got about 10,000 kilometres of grid.

We're going to double its size but reduce the number of electrons at each pole and wire carries.

This is a recipe for disaster!"

<https://ipa.org.au/publications-ipa/media-releases/aemo-ceo-must-be-sacked-for-failing-to-ensure-affordable-secure-and-reliable-energy-supply> - Daniel Wild 15th Dec 2023

**Australians need affordable and reliable energy, not a regulator advocating for ideologically based outcomes that will undermine our energy security.”**

**“The current situation Australia finds itself in with record and rising energy bills, forecast blackouts, and an increasingly unreliable energy grid, are all core features of the policy of net zero emissions. It is all pain for no environmental gain,”** said Mr Wild.

**Three things are clear about Chris Bowen’s renewable energy policy: many landscapes will never be the same; electricity will become more expensive and less reliable; and none of this will alter the climate.**

<https://stopthesethings.com/2023/12/14/theyre-not-in-kansas-anymore-mid-west-bans-industrial-wind-solar-projects/>

Tony Abbott when interviewed uses the turn of phrase – **“renewables are socialism masquerading as environmentalism”**

“...narrative being peddled by academics at elite universities and climate activists who are hawking 100% renewable energy schemes. Nor does it fit the agenda of the big banks, big corporations, and big law firms that stand to make staggering sums of money from federal tax credits if more wind and solar projects get built.”

'...the universal hostility the pointless power. The weather and/or sunshine-dependent stuff – **that can’t deliver power on demand – but that guarantees economic misery, environmental destruction and community disruption.**

Cobalt is in all iPhones, tablets & crucially EV's - it maximises charge & stability.

Before anyone knew what was happening the Chinese Government & Chinese companies took control of almost all of the big mines in the Congo, with the local population displaced & the Congolese people under duress - digging in subhuman, gut wrenching conditions - using all raw human force - clanking the cobalt out of the ground!

Throughout the whole history of slavery, never has there been more suffering that generated more profit than was linked to more lives of people around the world than what is happening today in the Congo - mining cobalt in appalling, heart wrenching & dangerous conditions.'

**\*\*WIND TURBINES ARE A FAKE GREEN SCOURGE - SHEDDING TONNES OF MICROPLASTICS FROM WIND TURBINE BLADES (KNOWN AS 'LEADING EDGE EROSION') - AFTER ONLY A FEW YEARS OF OPERATION.**

Mark Twichell spells out the poisonous truth - why Wind Turbines are a dangerous idea.  
The Buffalo News October 2022.

"Wind Turbine Blades leave a toxic waste legacy for centuries to come, but there is an even more immediate threat - their blades naturally erode during operation - spreading tonnes of microplastics far & wide.

The epoxy compounds they shed contain toxins that are finding their way into our oceans & drinking water.

The particles eroded from Wind Turbine blades includes epoxy resin which is 40% Bisphenol (BPA) - a frequently banned endocrine disrupter & neurotoxin" - equally as toxic as blue asbestos & lethal to young children.

"Academic research has shown the potential for 137 pounds of epoxy micro particles to be shed per turbine per year.

The resulting annual BPA release can potentially contaminate 17 million gallons of drinking water per turbine while threatening aquatic & terrestrial life.

Minimising the shedding depends on specialised blade coatings that contain toxic ingredients from the PFAS family of 'forever' chemicals which are biologically cumulative & non-degradable.

These coatings likely need replacement after a few years.

PFAS is a common ingredient in lubricants & hydraulic fluids which routinely leak from Wind Turbines."

\*\*18th August 2022 - Dr Eric Blondeel says:-

"That the plastics in the blades are toxic - is without doubt!"

As far back as 2012 the World Health Organisation warned about potential carcinogenic properties of endocrine disrupters & concluded that these substances pose a global threat to public health. Unborn & young children are especially vulnerable because their hormone system is still developing.

(<https://bergensia.com/bisphenol-a-in-wind-turbines-damages-human-fertility/>)**

Bisphenol A is a toxic chemical used in the epoxy resins that are used to make turbine blades. High speed spinning blades 300 KM/H collide with dust particles rain and hail and chip off small particles of the resin coating subjecting our land & waterways including catchment areas of drinking water reservoirs with these toxic - poisonous substances shedding from hundreds of Wind Turbines.

MY FAMILY & I DO NOT CONSENT TO THIS CONTAMINATING, ECOCIDAL, ENERGY POVERTY SWINDLE that's part of the FAKE GREEN SOLAR/WIND GRIFT & PONZI SCHEME/SCAM THAT'S CRUELLY TORTURING EVERYDAY AUSTRALIANS WITH GOVERNMENT INFLICTED COST OF LIVING CRISIS!

WE NEED TO TAKE A CHAINSAW TO THE EVIL BUREAUCRACY RESPONSIBLE FOR THIS DELUSIONAL, DESTRUCTIVE, ANTI-AUSTRALIAN AGENDA - OFFERING US THE WORLD & PAYING US WITH TRASH!!

Solar farm runoff pollutes property, couple awarded \$135 million - CFACT

<https://www.cfact.org/2023/06/06/solar-farm-runoff-pollutes-property-couple-awarded-135-million/>

By Bonner Cohen, Ph. D. |June 6th, 2023

25th Oct 2023 update ...A federal judge has dramatically reduced a jury's \$135 million award to a Georgia couple (<https://www.ajc.com/news/couple-awarded-135m-after-solar-project-turns-their-lake-to-mud-hole/BZ6BYXQREJCDROQV6ZASUW5WOI/>) whose property was fouled by muddy runoff from a solar project next door down to \$5 million, after objections from the plaintiffs in the case.

In an order issued Monday in the Middle District of Georgia, Judge Clay D. Land wrote that the punitive damages awarded to the couple were worth many magnitudes more than the property that was damaged, and therefore were excessive.
