**Subject:** Keith W Wynne objection to SSD1159-1659 proposed NEW Quarry  
**Date:** Wednesday, 20 December 2023 3:12:49 PM

---

Attention: IPCN,

My objection to NEW quarry SSD1159-1659.

I object to the proposed NEW quarry being given approval from IPCN.

Our rivers are already being contaminated by coal mines and quarries.

Do not add more creeks to rivers being destroyed in this valley or anywhere.

This is not the place to put a quarry that will take out the head waters of Deep Creek to Karuah River.

The roads are not built for these truck numbers or this tonnage weight.

The area is populated with people, amongst remaining bushland with wildlife and should remain this way.

Please refuse this development completely.

Keith W Wynne
