SSD-9679 Hills of Gold Wind Farm

To the Independent Planning Commission

I object to the Hills of Gold Wind Farm and I would like to bring the following points to your attention:-

I have been visiting Nundle and its surrounding rural and bushland areas for the past 20 years.

The landscapes, beauty and peaceful atmosphere is the very reason my family and I of three generations, have been going there. Should this proposed project go ahead, all will be lost forever more.

The destruction of flora and fauna due to heavy machinery coming and going, and the installation of humongous towers and blades will leave this naturally pristine environment aesthetically ugly and scarred.

I can see absolutely no reason why the Hills of Gold needs to be impacted, when it is in a non-REZ.

All of these points and many more, will definitely deter me from a variety of future investments in the area which I had been considering.

Should this project go ahead in this inappropriate region, I will be seeking refuge elsewhere.
