I am a resident of Nundle
I confirm to publish my name and location

Dear Sir / Madam,

I do NOT support the Hills of Gold Wind Farm

I purchased a business in Nundle in June 2007. I live in Nundle permanently.

I believe the wind farm will have an adverse affect on the environment due to the clearing of the land for the turbines and the transport route. I believe it will have an adverse affect on tourism to the village, particularly during the construction phase, due to traffic holdups. Small business in Nundle rely on tourism to survive and I'm not sure all businesses will be able to survive this phase. After the construction, I believe the wind farm industrialisation will change the character of the town with visitors choosing other locations to have their break away. Our visitors tell us they come to Nundle for the peace and quite, to get away from it all, a step back in time. Nundle will no longer fit this bill, with turbine lights visible from many camping locations polluting the night skyline and the impact of infrasound disturbing the peace.
