I am a resident of Nundle
I confirm to publish my name and location

I do not support the Hills of Gold Wind Farm. I am a 14 year old student and I fully support renewable energy. If the proposed wind farm was sited west of Nundle, closer to the Newcastle/Tamworth power line corridor (near Garoo), I think this project would be more acceptable as this land is almost all cleared. I don't like the idea that we need to destroy habitat to do our bit to save the world. The Hanging Rock ridge line should be preserved for the next generations.
