Subject: I OBJECT to the Hills of Golf Wind farm!!
Date: Friday, 12 July 2024 8:41:30 PM
Importance: High

I completely object to the Hills of Gold wind farm due to the impact on the native vegetation that will be removed which will then cause very serious impacts to flora and fauna species, also the impact to the surrounding communities, including businesses, families, and farmers.

The increased traffic on the rural roads will cause significant damage making these roads more unsafe for the families, children, and many tourists traveling to and from school and work.

Do NOT approve this project that will without a doubt cause irreparable damage to the environment and surrounding communities.

Kind Regards,
Abby Delforce
