

Submission to IPC Ref No SSD-9679 (hills of Gold)

I wish to object to the recently changed recommendations of the Planning Department in their recommendations to the IPC.

The Planning Department is supposed to be independent and follow guideline rules that take into account Communities interests. This new process is not independent if recommendations by an independent body are overruled. When a Developer claims a project needs to be bigger to be viable, of course for the developer bigger is always better and neighbours and the community become secondary. Thank you for accepting my submission.

Penny Greig, [REDACTED] st Walcha. 2354.
