Importance: High

DO NOT APPROVE the Hills of Gold wind farm!! It is clear and simple. The impact on the local communities, families, farmers and future farmers, businesses and not to mention the increased damage to the local roads and the native vegetation that will be destroyed in the process.

These local families and residents do not deserve this years of disruption, stress and ongoing issues this project will create. Simply, DO NOT APPROVE this project.

Regards,
Robert Delforce.
