Thunderbolt Wind Farm Public Meeting on Utube.

Please give your full attention to the entire five hours of recording.

I cannot add much more, in support of the strongly convincing points made by affected community members you will listen to in this video recording!! They have said it all.

This French company tried to persuade the audience, residents of the New England region of NSW, and more particularly residents of Uralla, Armidale and Kentucky in this beautiful region, that they have ticked all the boxes to gain your approval.

Please listen to the other side.

We have nuclear energy waiting patiently for our use. Can't any sentient human brain acknowledge that it is time we lifted the prohibition on its peaceful use and got started on planning to place these small modular reactors into the retiring coal fired power stations in NSW
