*I would like to say how pleased I am to welcome some positive aspects that will occur with the wind turbines coming to the area.*

*This will include jobs for the local community and providing accommodation and services for people living in the area.*

*This area has suffered with down turn in the markets due to Covid, fires, floods, droughts, and weather misinformation all effecting the markets. This destroys the ability to plan for the future. I look forward to disturbing the feral animals i.e. deer, pigs, foxes and rabbits. Also allowing roads and access for the RFS to incrwase the fire safety measures needed.*

*We ourselves are totally solar powered and not connected to the grid. We believe in the environments ability to remain healthy with the turbines as part of the landscape*

*We are long-term residents that look forward to these changes.*
