As a 5th generation farmer and grazier in Dunedoo I am strongly opposed to this development.

The planning and consultation has been horrendous and not well thought out at all. This is destroying rural communities for the sake of making our city cousins feel green and making a lot of multinational companies rich. Why should we shoulder the burden for the cities that will use the energy.

There is a lot of land in this country that produces no food whatsoever, stop destroying farm land and put it there.

I reiterate that I am strongly opposed to this.
