Location: <i>New South Wales 2850</i>		
Submitter Type: <i>I am a member of the local community who would be particularly and directly affected by the proposed development</i>		
Attachment:		

Submission date: 5/23/2024 7:56:30 PM

*As the crow flies this solar farm is not far from the village of Turill which is where I live. As it stands now the residents of Turill and surrounding areas have to deal with the infrastructure coming from the windfarm on Coolah Tops which includes a 600 bed workers camp. We have no say, no rights to oppose it. Sure we can put a submission in, we can make our feelings known and you and I know it amounts to nothing. We are collateral damage being sacrificed for the renewable monster. We have good fertile productive farmland, creeks, wildlife, platypus, koalas are also being sacrificed. No one cares about the well-being of the residents, no one cares about our quality of life, no one cares about the our properties being devalued. Would you like to live near a windfarm, and the massive infrastructure associated with a windfarm or a solar farm? Would you like to have a 600 and 500 workers camp on your doorstep? Why are Australians in rural and regional areas expected to tolerate renewables taking over our land. To be honest with you I think all of you from the government down you are detestable. Our rights have been trampled on. You and I know we little people don't count and nothing we say adds up to nothing. I want to see these monstrosity built in your backyard, in politicians backyard, wind turbines on all the Sydney beaches, on the Harbour Bridge, solar panels on the Opera House. Well that's it.*
