Submission No: 179067

Organisation:		<b>Key issues:</b> <i>Land use compatibility, Visual impact, Traffic and transport, Social impacts, Temporary accommodation, Other issues</i>
Location: <i>New South Wales 2580</i>		
Submitter Type: <i>None of the above apply to me OR I am making a submission in relation to advice the Commission has been asked to provide</i>		
Attachment:		

Submission date: 6/12/2024 8:52:24 PM

*There are deficiencies that need to be addressed:*

- 1. a bond should be lodged from the start (on approval) of project with guaranteed finance in place to cover decommissioning and full project removal, disposal and rehabilitation costs at end of life as it is common that the owners of such facilities regularly change hands and there is no transparency regarding the current responsibilities,*
- 2. owners of large-scale solar energy generation developments should indemnify adjoining private landowners from any public liability risk as it is no longer a farm as a neighbour but a large scale industrial solar energy generation facility.*
