The proposed plan will sit less than 1km from Dunlop, Charnwood and Macgregor - I am in favour of alternative energy sources but this will set a new precedent for proximity to residential areas - previously it has been accepted that solar farms should be set back from residential areas to limit the hazards they produce - noise, fire risk and potential health impacts.

For example the closest one to a community close to us is Springdale solar farm and is 8 km from the town of Sutton and Blind Creek solar farm is 8km northwest of Bungendore
