Dear Mark,

Cadia Valley Operations | Notice of a Gateway Application | Cadia Continued Operations Project

Cadia Holdings Pty Limited (CHPL) (ABN 95 062 648 006) proposes to seek development consent for the Cadia Continued Operations Project (CCOP). CCOP will see the extension of the existing Southern Tailings Storage Facility and the Cadia East subsidence zone on land located outside of the mining leases held by CHPL that may be classified as Biophysical Strategic Agricultural Land. These areas are identified as the Gateway Application Areas on the enclosed figure.

A Gateway Application is therefore being made to the Mining and Petroleum Gateway Panel by CHPL for the issue of a Gateway Certificate.

This correspondence provides notification of CHPL intention to submit a Gateway Application for the issue of a Gateway Certificate by the Mining and Petroleum Gateway Panel under Clause 2.29(3)(a) of the *State Environmental Planning Policy (Resources and Energy) 2021*, prior to a Development Application to the Minister for Planning and Public Spaces to carry out a development under Division 4.1, Part 4 of the *Environmental Planning and Assessment Act, 1979*.

The enclosed figure shows the land which is the subject of the Gateway Application (referred to as the Gateway Application Area), which includes:

- Road reserves for which Blayney Shire Council and Cabonne Council is the road authority.

- Canobolas State Forest owned by the NSW Government and managed by Forestry Corporation NSW.
- Crown land managed by Crown Lands.
- Freehold land owned by two different parties.

I trust that this provides you with sufficient information at this stage.

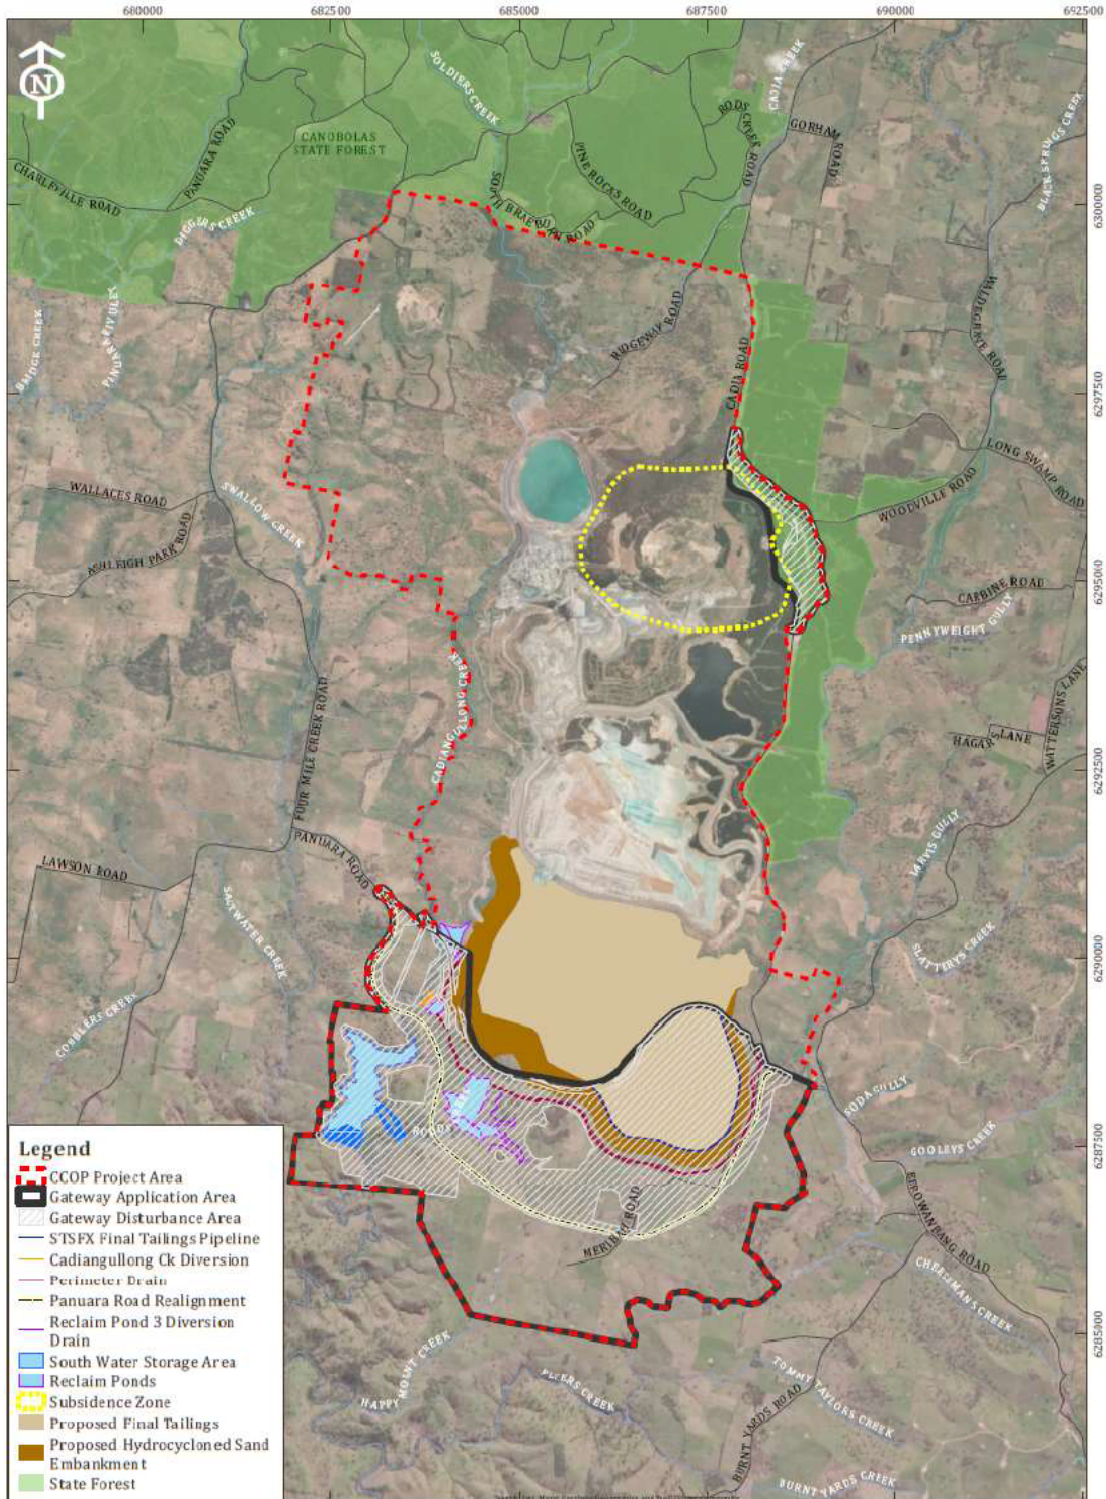

If you have any questions or wish to discuss this letter, please contact me on [REDACTED]

Jann Harries

[REDACTED] NSW [REDACTED]

Via email [REDACTED]

Dear Jann,

Cadia Valley Operations | Notice of a Gateway Application | Cadia Continued Operations Project

Cadia Holdings Pty Limited (CHPL) (ABN 95 062 648 006) proposes to seek development consent for the Cadia Continued Operations Project (CCOP). CCOP will see the extension of the existing Southern Tailings Storage Facility and the Cadia East subsidence zone on land located outside of the mining leases held by CHPL that may be classified as Biophysical Strategic Agricultural Land. These areas are identified as the Gateway Application Areas on the enclosed figure.

We note that the Gateway Application Area intersects with the Old Errowanbang property boundary. We anticipate that prior to finalizing the CCOP environmental impact assessment that the CCOP boundary will be revised, such that there will be no intersection with any land associated with the Old Errowanbang property. Irrespective CHPL does not expect that there will be any ground disturbance from the proposed CCOP on any land associated with the Old Errowanbang property.

A Gateway Application is therefore being made to the Mining and Petroleum Gateway Panel by CHPL for the issue of a Gateway Certificate.

This correspondence provides notification of CHPL intention to submit a Gateway Application for the issue of a Gateway Certificate by the Mining and Petroleum Gateway Panel under Clause 2.29(3)(a) of the *State Environmental Planning Policy (Resources and Energy) 2021*, prior to a Development Application to the Minister for Planning and Public Spaces to carry out a development under Division 4.1, Part 4 of the *Environmental Planning and Assessment Act, 1979*.

The enclosed figure shows the land which is the subject of the Gateway Application (referred to as the Gateway Application Area), which includes:

- Road reserves for which Blayney Shire Council and Cabonne Council is the road authority.
- Canobolas State Forest owned by the NSW Government and managed by Forestry Corporation NSW.
- Crown land managed by Crown Lands.
- Freehold land owned by two different parties.

I trust that this provides you with sufficient information at this stage.
