Topic 1. Sustainability of current and future forestry operations in NSW

Don't destroy native forests or bush land

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

When they're gone they're gone forever . FOREVER

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Plantation only.

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

Management means leaving native forests alone!

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

Native forests absorb more CO2 than human interfered with forests
