**Topic 1. Sustainability of current and future forestry operations in NSW**

Stop the logging, stop clearing land that is habitat to our wildlife, simple

---

**Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

It's not hard to understand that we need to look after our forests, woodlands and habitat

---

**Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Find a way to build without destroying precious habitat

---

**Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

Look at alternative building supplies without destroying habitat

---

**Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

Make our wildlife and habitat just as much as a priority as housing

---

**Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

Just don't pretend to care about our biodiversity, actually do more meaningful things to protect our wildlife
