Topic 1. Sustainability of current and future forestry operations in NSW

Essential that native forests are allowed to prosper: please, logging must be discontinued

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Without forests, oxygen becomes depleted and wildlife threatened with extinction

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Timber production must be from sustainable sources

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Only the firmer can be considered

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

Let's work together to protect our native flora and fauna

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

We only have one opportunity to get this right time is running out.
