### **Topic 1. Sustainability of current and future forestry operations in NSW**

Please stop this thinly veiled extinction logging. It makes no sense to destroy what little remains of our native forests . Trees are our greatest defence against flooding, keep them in the ground, slowing the water and sequestering carbon.

---

### **Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

Please stop this thinly veiled extinction logging. It makes no sense to destroy what little remains of our native forests . Trees are our greatest defence against flooding, keep them in the ground, slowing the water and sequestering carbon.

---

### **Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Concentrate on plantation timber.

---

### **Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

It's green washing.
