**Topic 1. Sustainability of current and future forestry operations in NSW**

Of the greatest importance and grossly neglected

---

**Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

The same applies and in spades

---

**Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Of course this required but has been eye stoppingly badly by both industry and government

---

**Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

The same comment applies

---

**Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

Captured by the industry for many years

---

**Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

I don't have sufficiently uptodatr data o
