## **Topic 1. Sustainability of current and future forestry operations in NSW**

end the logging of native forests.

(take note: your questions are too complicated for us ordinary folk to understand so i am just stating what i believe in simple repetition. btw: have you made the questions deliberately complicated and difficult so as to discourage people from doing a submission? if so this is unacceptable).

you are really supposed to make this questionnaire accessible to all of us and making it difficult to understand is not inclusive. i trust that you will include my submission -if not then let me know and i will pursue the matter further.

---

## **Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

---

## **Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

---

## **Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

---

## **Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

---

## **Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

---

the logging of native forests must end.
