Topic 1. Sustainability of current and future forestry operations in NSW

Please cease logging old growth forests.

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

If you cease logging old growth forests environmental and cultural values will be protected. So much has been lost. Please protect what remains.

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Grow sustainable timber to meet market demand in flood zones or areas that have been used for farming.

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Grow softwood and hardwood plantations in flood zones or areas that have been used for farming.

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

What is good for the environment is good for the economy. This simply truth should be a reminder for all who "can't see the Forrest for the trees"

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

Stop chopping down our ancient trees!
