Topic 1. Sustainability of current and future forestry operations in NSW

I believe current operations are sustainable in the long term

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Forestry lands are better managed than national parks

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

Good balance of environmental, economic and social outcomes by state forests

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

Logging stimulates growth in a forest thereby increasing carbon capture
