Topic 1. Sustainability of current and future forestry operations in NSW

Currently I believe it is sustainable as is I spend a lot of the time in local forests where logging is rotated through forests across the mid north coast.

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Areas of importance are protected and excluded from plantation areas for logging continue as is

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Required for current housing and industry practices

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Continue as is

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

No concerns that n current situation

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

No change
