Topic 1. Sustainability of current and future forestry operations in NSW

Please stop logging our native forests our wildlife just can't take anymore

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Please stop you are destroying our cultural icons

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Houses can and should be built with steel frames it's more sustainable and safer for the house and occupants

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Practical furniture can and should be made with other materials

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

All forests should be maintained by indigenous peoples

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

Climate change is a fact of life now and if we don't stop unsustainable practices immediately our children will not only have a hard future they may not have a future at all !!!
