**Topic 1. Sustainability of current and future forestry operations in NSW**

It's not sustainable

---

**Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

You are threatening to wipe out entire species as well as disrespecting aboriginal land and culture

---

**Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Private plantations can make 97% of the timber products we need

---

**Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

Research has shown most of it ends up as wood chips, you are destroying forest for wood chips?!

---

**Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

You are ignoring what the public wants

---

**Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

Climate change is real and by logging more of our forest will be making it a death sentence for our unique wildlife and generations to come
