Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

I have a variety of timber products in my house and enjoyed using the range of Australian timber during recent renovations. It is affordable, provides a beautiful and natural feel to the home.

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

I enjoy taking my child for nature walks through the local state forests where I can teach him about timber, the environment and nature.
