**Topic 1. Sustainability of current and future forestry operations in NSW**

I have a farm and the timber people come maybe every 5 years and selectively take some trees

---

**Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

We can still harvest timber without impact to these

---

**Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Timber is so beautiful to work with for flooring. I also need it for my wood fire. I need it to build my house. I need it for my decking.

---

**Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

I have softwood and hardwood on my farm and forestry planted trees

---

**Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

We need state forests too

---

**Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

Carbon credits for planting trees
