Topic 1. Sustainability of current and future forestry operations in NSW

Absolutely ridiculous to be destroying our NATIVE forests!!
I support all that find this situation untenable.
Leave them (the forests) be!!!

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Our native forest areas are sacrosanct and are vital to a healthy Australian landscape and a healthy environment!!

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

An alternative to native timber needs to be found asap.
Who on earth would rely on a 'medium' that destroys forests and puts our environment at risk!?

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Native Forests need a future along with thousands of the wildlife that rely on it!!

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

Our aboriginal culture relies on healthy forests.
