**Topic 1. Sustainability of current and future forestry operations in NSW**

Plantation non native trees to be harvested when appropriate then then land to return to be natural forest. Reintroduce natives flora and fauna.

---

**Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values**

Do not cut any native forest. Allow any previous treed currently unused areas to return to native forest

---

**Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail**

Substitute with not forest products

---

**Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs**

Completely discontinue

---

**Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models**

Completely discontinue. Allow plantation non natives to reach maturity then return land to original forest.

---

**Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests**

Cease any deforestation for any purpose
