Topic 1. Sustainability of current and future forestry operations in NSW

End them. Corruption is rife as is rule breaking. We see the prosecutions launched and the lies told to justify the carnage.

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

They are vital for animals that depend on them.

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Get it from plantations.

Topic 4. The future of softwood and hardwood plantations and the continuation of Private Native Forestry in helping meet timber supply needs

Get it from plantations.

Topic 5. The role of State Forests in maximising the delivery of a range of environmental, economic and social outcomes and options for diverse management, including Aboriginal forest management models

End logging.

Topic 6. Opportunities to realise carbon and biodiversity benefits and support carbon and biodiversity markets, and mitigate and adapt to climate change risks, including the greenhouse gas emission impacts of different uses of forests and assessment of climate change risks to forests

End logging.
