Topic 1. Sustainability of current and future forestry operations in NSW

I am concerned by the destruction of native forests.
Our old growth forests are irreplaceable.

Topic 2. Environmental and cultural values of forests, including threatened species and Aboriginal cultural heritage values

Our forests are a huge resource. The biodiversity they contain is more complicated and more valuable than we realise

Topic 3. Demand for timber products, particularly as relates to NSW housing, construction, mining, transport and retail

Timber products should be sourced from plantation timbers.
Let's be trailblazers for building with mycelium, or recycled plastics etc
