Wrong site, wrong community. Health risk and business risk. Health of current and future generations at risk for the sole gain of a foreign company. Why? Business impact risk of lower number consumers visiting the highlands due to health risk and I wouldn't blame them will have direct impact on economy risking further smaller community businesses to move or close. My business being one. I hope the commissioner does the right thing and considers all the concerns raised by community and not the interest of a foreign company.
