*Moss Vale is not the place for a plastic recycling centre. Our local landscape will be drastically impacted, with a flow on effect to the surrounds, including Sydney and the Illawarra. The proposed site is far too close to waterways and native flora and fauna. The likelihood of plastic contamination in water and the risk of fires from the centre would be catastrophic.*

*Furthermore, the impact that this development would have on the local community would be drastic.*

*The southern highlands, especially Moss Vale, already struggles with traffic congestion and poor road quality. Additional traffic would only worsen these issues insurmountably.*

*Moss Vale is not the place for a plastics recycling centre.*
