Please stop this development! It will have an impact on the future generations' health and wellbeing. After visiting the protest on Friday, I am worried about the health and the long term effects for my young family. That is not fair to us and the people surrounding us.

This will also affect the beautiful environment and fresh air in the Southern Highlands. Tourism and overall population of Moss Vale will decrease and this affects our local businesses, which is a niche part of our local area.

I am currently living not far from this site and if built, it will affect the local traffic, causing pollution and friction on our roads. The government will have to build more infrastructure to accommodate these trucks which affects our local town. Please do not do this to the gorgeous Southern Highlands!
