Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: <i>New South Wales 2460</i>	
Attachment: N/A	

Submission date: 11/5/2024 6:19:21 PM

*It's commendable that a plastics recycling plant is being proposed instead of irresponsible alternatives but why here? Why wouldn't a more remote area be chosen that would not affect so many and so much. As a person who lived in the region as a child and who still has family who resides in the area, I object to this proposal that to me, only spells irreparable damage to the environment as we know it: the physical natural environment- air, land and waterways; the aesthetic environment with its natural beauty that my family and I have loved for generations; and the quiet & tranquil lifestyle that residents have traditionally enjoyed when there are so many other more suitable prospects that would not impact on residents' much valued and hard earned lifestyle choices.*
