To Whom it may concern,

I am writing to express my objection to the proposed Plasrefine Recycling facility, a 24/7 plastics reprocessing operation planned for Moss Vale. While I support sustainable practices, I am deeply concerned about the negative impact this development could have on Moss Vale's reputation as a key tourism region.

Moss Vale is known for its tranquil environment, scenic landscapes, and welcoming atmosphere, all of which attract visitors and support local businesses that rely on tourism. The operation of a large industrial facility, particularly one functioning around the clock, risks disrupting this image through increased noise, light pollution, and potential chemical emissions. Such changes could deter tourists, damage the local economy, and diminish the area's appeal as a destination known for its natural beauty and peaceful surroundings.

I urge the council to carefully reconsider the approval of this development, taking into account the potential long-term impact on tourism and the local community's well-being.

Thank you for your consideration of this objection.

Sincerely,

██████████
