As someone who is expecting their first child, I moved to the southern highlands to escape polluted and busy Sydney. I do not want the plastics facility to take place in the proposed moss vale location. I do not want my new born child exposed to these fumes as a resident or moss vale. I do not want to second guess whether or not my local water supply has been contained each time I make my newborn a bottle, or give them a bath. This facility SHOULD NOT BE IN MOSS VALE
