*I strongly disagree with Plasrefine being given approval to build and operate in a Moss Vale. As a resident of Moss Vale, Wingecarribee Council and New Soth Wales we need to strongly consider the adverse effect on the land, residents, traffic, traditional owners and future generations. With no guarantees the waterways will not be effected, the land covered in nano particles, that livestock with not ingest the particles and local residents will not inhale and ingest the particles approval should never be granted. Trucks 24/7 on roads already under stress and falling to pieces will only exacerbate the problem. I say NO, NO and very strongly shouted from the rooftops NO to Plaserefine.*
