I object to this development for many reasons, but primarily because it is the wrong site for a development of this type and size, and the potential damage it is likely to have on local residents health.

I object because of the damage the huge amount of trucks per day will do to our, already poorly upkeep roads.

NSW Planning are already forcing another 4,000 plus homes into our small community, with little or no financial contribution to improve our infrastructure to handle the huge increase in our population. Now on top of this they are approving a development that will increase our traffic load by up to 200 trucks a day - again with no big financial contribution to massively improve our roads to handle the burden.

Not the right site for a development of this type.

Please do not approve this.
