Organisation: N/A	Key issues: <i>Social impacts, Visual impacts, design and landscaping, Land use compatibility (surrounding land uses), Traffic, Other issues</i>
Location: New South Wales 2577	
Attachment: N/A	

Submission date: 11/6/2024 5:58:45 PM

*Not the right site for the project.*

*1) it's a residential area, not appropriate at all for a recycling factory.*

*2) the trucks. There will be trucks driving all day and night on Beaconsfield Road. The road will be destroyed, residents will be disrupted day and night with traffic and noise, and there's a daycare there where children sometimes get near/on the road, putting them at high risk of getting run down.*

*3) the environmental impacts. We've received no assurances the nearby ground/air/water sources/wildlife won't be affected by pollutants created by the recycling centre. In fact some research has shown that similar recycling centres do release toxic pollutants into the air, ground, and waterways that are detrimental to the environment.*

*I believe all local residents will be negatively affected by this centre. Our quality of life will go down, our housing prices will be affected, roads around our area are already a nightmare as it is without trucks on them day and night, the whole proposal is completely out of touch with what the local community wants.*
