*I would like to object*

*I do not agree that anywhere in the southern highlands should be considered for this development*

*For following reasons*

*Impact of chemical processing in such a pristine region . I moved here to bring up my children and then ultimately retire here I from interstate for the community and beauty of this region. If this goes ahead I will definitely be moving as I will not live in an area that has supported such a project. This is shocking to me and I can't believe we are fighting to stop this in this precious region.*
